

Group I Bridge, Companion, Initial and Pictorial Sets: I

[This is T & T List #28, which was originally numbered as List #26]

“While the following list of Bridge Covers, etc., is not considered complete, it is representative. There have undoubtedly been other issues which are not listed here. Numbers shown in the first column are numbers found on the inside of covers; Figures in second column indicate number of covers in the set. Those marked with an asterisk (*) are known as Base Friction matches. The numbers, where shown after the title, represent the date of the design while the second number is the date the design was adopted.

“For example: Set No. 1610 “Old Fashioned Bouquet” (082737-45) indicates that the design was adopted Aug. 27, 1927, and was the fourth printing of that design. In some cases the design is the same while in others there is a slight variation. For instance: Set No. 116 (The Setter Family) appears in brown ink on the first printing and in black ink on the second printing.”

SET	# IN	TITLE, DATE OF DESIGN AND PRINT ISSUE
701	2	Laddie
702	4	Park Avenue
703	2	Bok Tower (Singing Tower)
704	2	Pedigree
