

Travelodge Art Collection Set

[Reprinted from Long Beach bulletin, October 1975; Win Lang author]

There is a 27-piece Australian Travelodge set. Each and every cover is individually numbered, starting with #1 and continuing through #27. They are reverse strikers, approximately our 30 size, by Hanna Match. Above the striker is "The Travelodge Art Collection".

All back panels are identical, with a black background, in a green-blue large type: "Top Accommodations at over 500 locations in Australia, New Zealand, Fiji, New Guinea and North America."

Each saddle is identical with the single large word "Travelodge" with the "T" crossed over as far as the "v", and the "L" underlining as far as the "g". Each front panel is different. Each of the first nine is a painting, identified above the words "The Travelodge Art Collection". Each is identified as first the name or title of the painting, then the name of the artist. Immediately below the striker are the words "No. 1 in a series of 27" ...or No. 2...No. 3...etc., completely through all 27 covers.
