

Australian Aboriginal Box Set

One of the nicest sets to ever come out of Australia is this 48-piece Australian Aboriginal box set, each featuring different aspects of Aboriginal life, and each box individually and consecutively numbered. I don't have a date on this set, but I've had mine since the mid-1980s, and they look considerably older than that. Here is a listing of the individual boxes:

- | | | |
|----------------------|---------------------|-----------------------|
| 1. The Hunter | 17. Rock Carvings | 33. Making The Boom. |
| 2. Catching Ducks | 18. Cave Painting | 34. Returning Boomer. |
