

Was The Alamo *Really* The End of The Line For Davy Crockett?

Is nothing sacred?!! We all *know* that Davy Crockett went down fighting at the end of the 13-day siege of the Alamo, wielding his rifle like a club before he fell near the front doors of the former mission's chapel on March 6, 1836. I, personally, know this is fact because I saw Davy Crockett die this exact way decades ago on *The Wonderful World of Disney* in the 1960s! Now, I ask you, would Walt Disney lie?

Yet, a Mexican army officer's 1840s eyewitness account has surfaced that indicates Crockett never even died at the Alamo. The diary of Lt. Col. Jose Enrique de la Pena indicates that Crockett and half a dozen other Alamo defenders actually surrendered, were taken before General Santa Ana, and then tortured and brutally executed. Most historians are accepting the diary as authentic...and there have been other similar documents that have surfaced over the years, as well....The next thing you know, they'll be telling us that George Washington never chopped that cherry tree!
