

## Holy @^%\$\*!!

In our Jan/Feb issue, Cliff Denniss, CT, wrote in with two covers from the same address, and I asked if anyone else had examples of such.

Bill Scott, CAN, sent in two covers which also had the same address, but Duane Ready, PA, sent in *SIX* covers, all at the same address!

They probably represent a span of about 30 years, but the five front-strikers would all be from a smaller length of time. Two have the same phone number; four have the 561 prefix.

Note that the Apple Inn doesn't show the address, but Duane attests to its address, as he lived in Dormont for a time.

Duane explained that Dormont is a suburb of Pittsburgh, so whether the covers say Dormont, Pittsburgh, or both..it's all the same place.

In any event, it would seem that this particular neighborhood was a tough place to run a business!
