

Featuring Full-Lengths!

Restaurants

Nice, huh?

You'll notice almost all of these various Full-Lengths we've been featuring for the last several months are older covers. As we pointed out last time, that's because they don't do art work like this anymore.

But what about the full-length format, itself? I thumbed through my Dated collection and the earliest dated Full-Length I could find was the 1933 Century of Progress issues, which have both horizontal and vertical full-lengths. Those were put out by Diamond.

So, Full-Lengths go back at least as far as that.
