

## Just How Popular Were They? II

*This is a continuation of last issue's comparison, by covers listed or largest collections, of manufacturers and types. We covered manufacturers last time; Here we deal with types. Note: some of the totals here are not current because the lists have been discontinued, but I've only used those for types that were already quite complete. I've also used Largest Collection figures if they were larger.*

<u>Types</u>	<u># Listed</u>
