July 4th!...What better time to start considering a Patriotic collection! I like such covers because they're not only collectible, but they're history, as well.

There are a number of subcategories here to choose from...Choose one; choose all!

Patriotic covers, such as World War II Patriotics. Win Lang, CA, reported having 2,844 in June 1997.

American flags, always colorful and there are certainly many to go after.

Bicentennial, they're patriotic in theme and definitely mark an important point in American history. Wayne Eadie, NJ, reported having 4,617 in his collection in February 2016.
