** Tom Gray, IA, who has provided this list, notes "Manny Phillips gave them to me many years ago. Manny has been gone for many years so I don't know when he gave them to me.

It is a series of covers by B & B for the Indiana Sesquicentennial 1816 – 1966.

They were in the bag that they came in and packed in a box. I had forgotten about them. The note with the covers states that Manny was told there were 110 covers issued. *[I only know of these 104 so far]*
