

“Minimizing” Politics

I collect Minor Political, so when I happened to be paging through my Midget albums, these caught my eye.

“Midget” was a Lion trademark for its small 14-strike covers (3 3/16”x1 1/8”); highly sought-after; 1934-1943; it soon became a large category and one which has always been popular with collectors. 9,451 listed as of 3/18. The term is also categorically used for any such sized covers (Ohio and Diamond also made such)
