

# New Retro Features

Here are some color images of some of the "new" retro Feature matchbooks that have recently come out. They are produced by The Match Group, and manufactured in Germany. Many of them are available for sale online. (I have 32 of the "new" Features in my collection so far.) For use in either bulletin should you choose to do so. Mark Quilling

The Bunnyhill Ski Lodge is a spot striker...the skis on the back panel are the strikers. It was issued along with the swimming hole (a knothole) and the golf Feature. Those three were designed by artist Blaze Ben Brooks and are available for sale online.
