

KNOW YOUR COVERS!

Diamond Match was a Diamond footer, issued from 1920-1923 [based on Bob Oliver's *Diamond manumark listing*]. Needless to say, it's one of the Golden Oldies sought after by collectors interested in the early cover issues. Chronologically, it comes after the DIAMOND SAFETY FIRST issues and before Diamond's DIAMOND QUALITY.

These are all XL, or 'tall', covers, and the strikers have sometimes been applied askew, a common occurrence in many of the very early covers, no matter what manufacturer.

There are currently 53 listed on the list that I maintain.
