

KNOW YOUR COVERS!

Foreign Navy Ships

This category is exactly what it says, except Canadian Navy Ships, as we say in our July/August issue, are collected as a separate category.

Britain, France, and Brazil seem to be the biggest contributors, here. As a whole, though, covers in this category are fairly hard to come by, probably, mainly, because there aren't many to be had in the first place.

I have 20s, 30s, and 40s. I've never seen any in 10s or in any of the irregular sizes (Contours, Jewels, etc.) I've never seen any boxes, either, but, considering we're dealing with foreign areas, I suspect there have to be at least a few. The late Bill Thomas, FL, had the most that I know of...45, and that was back in 1993.
