

KNOW YOUR COVERS!

Lion 21 "FEATURE" - Ah, Lion 21's! This was a Lion Match Co. mm used c. 1940-c. 1957. They're characterized by heavy, thick cardboard and very nice art work. These are 30-strike covers, most of which are front-strikers. The rest are back-strikers (very early reverse-strikers).

As the manumark states, these were Features, but, oddly enough, there are many more stripped covers in collections than there are full-book features (I have 921 of the former, for example, and there are 1,696 covers currently listed.)

These are really nice, quality covers that cover the gamut of other categories.

Joel Acus, OH, had 1,860 in his collection as of November 2005.
