

KNOW YOUR COVERS!

Lucky Sticks - Lion trademark for match sticks w/ poker hands printed on them. They're sometimes referred to as "Lucky Matches," probably because they were apparently specially made by the Lucky Match Corp., which can be seen on the photo on the far right.

I'd say these are full-book Features, although I might get an argument from some purist full-book Feature collectors. They *do* have the characteristic wide sticks, and there's more here than just text.

What do *you* think? Send your cards and letters in to *yours truly*.
