

KNOW YOUR COVERS!

National Press

Not to be confused with the National Match Co., this was a Chicago-based printing company; Superior Match Co. seems to have made most, if not all, of its matches.

Covers were issued from 1930s-c.1940s. For most collectors, the drawing card here would be all the Girlie sets! Lots of 'em!.

I only collect and list the wide-striker varieties. There are 579 of those currently listed. I have 193.

There are a significant number of National Press covers that are not wide-strikers, though, so I would say the total number of National Press covers certainly number in excess of 1,000.
