

KNOW YOUR COVERS!

Pacific Match Co.

Another of the small, little-known manufacturers. I hardly have any information on it at all.

This was a Tacoma, WA-based company, at least in its earlier years. I believe later issues give Vancouver as the headquarters. It ran from 1924-1964.

There are only 15 covers currently listed, and I only have the one pictured here, albeit it's a nice one. Most of those listed are Service Stations. I don't know if that was purposeful on the part of the company sales or just a peculiarity of the covers that happen to be listed.
