SAFETY FIRST — CLOSE COVER

A number of different companies issued the ‘Safety First’ footer on their covers over the years. Universal was one of them.

Compared to such Lion and Diamond footers, Universal’s wasn’t as bold and eye catching, but they’re there, none the less.

They were used on Universal covers in the 1930s. There are currently 107 Universal Safety First covers listed.

As with all the Safety Firsts, no matter which company issued them, they’re all keepers for collectors who have an eye for the oldies.
