# KNOW YOUR COVERS!

## *Dated Auto*

This is a large category for auto covers which show a date (i.e. 1956 Ford). I don't hear about this category very often anymore, probably because dealerships and other distributors haven't given them out in quite awhile. For example, (judging from my own collection) Chevy was, of course, a prolific source of such covers right through 1984. After that, nothing! The same is true with the other auto makers, give or take a few years.

20s, 30s, and 40s are the normal sizes here, in that order of frequency...Lots of Matchoramas and other color photo types here.

David Schroeder, CAN, had 4,616 Dated Auto covers as of January 2001.
