2011 Aldi Netherlands Set

Hans Everink, Netherlands, has come through for us again, with new issues appearing in Europe. This time, it's a five-box set from Aldi (a European supermarket chain). Each box shows a nice color photo of either produce or a kitchen scene. This set was issued in the Netherlands.

Hans also reports that a similar set, but with different photos, was also issued in Belgium at basically the same time.

Boy, if you're into boxes, there are certainly lots of new issues always coming out of Europe and Asia—nice colorful sets—they look good in your albums!

As usual, though, you have to have contacts overseas to have access to this material. Check on Collectors On-Line on the RMS web site.
